

**MEMBER
SPOTLIGHT!
Lions Club of
Madison:**

The Lions Club began in 1917 in Chicago, Illinois, with a simple goal in mind: forming an organization to improve the local community. A large part of the Lions Club's mission was actually started by none other than Helen Keller, titled the Mission of Sight Conservation. This provides people in the local communities with assistance in having quality vision and detecting early signs of blindness in the future.

Our local Madison Lions Club began in 1942. Dr. Joe Herring, whom you may know from Madison ChiroTherapy, has been the president of our local Lions Club since July of 2019. Our local Madison Lions Club also hosts our annual Fourth of July Celebration around Lake Francis. They will also be holding a chicken dinner fundraiser on Friday, November 6! The cost is only \$6 per plate in advance, or \$7 the day of.

Our local Lions Club currently has 20 members and they are always looking to add people to that list! If you are interested in getting involved with this great organization, send them an email at mymadisonlionsclub@gmail.com, or visit one of their weekly meetings every Tuesday at noon in Cucinella's Brick Oven Pizza, located at 201 SW Rutledge St, in Madison.
